YOUTH-LED

- Proximity in age allows for a genuine connection – creating sessions that feel authentic and engaging
- Relatability drives real impact: students gain practical employability skills and clearer direction for their future.

THE PROBLEMS

13.4% of students in the UK are classified as NEET (Not in Education, Employment or Training)

Students consistently report gaps in practical employability guidance, particularly around applications, CVs, Interview skills and professional conduct.

SEN students are often less likely to receive tailored, practical guidance on navigating the working world

THE SOLUTION

Talentix delivers interactive, youth-led school-based workshops that support Y10-13 and SEN students in developing the practical skills and confidence needed to access post-16 opportunities.

"The Talentix workshop was exactly what our Year 11s needed. They connected with the students in a way that felt real and relatable."

- Charlene Steele, Careers Leader

"Probably the best workshop I've had!" – Teddy, Year 10
